

## BOY ROBS LAWYER AT PISTOL POINT

NEWARK, N. J., April 20.—Entering the offices of the Standard Securities Company on the fifth floor of the center of the business district yesterday afternoon, a youth of about eighteen years placed a revolver at the head of Attorney Joseph B. Breidt and demanded the latter's money.

The lawyer turned over \$300, and the robber fled to the stairway, descending to the ground floor.

Stella Stokes, elevator attendant, hearing the robber's demands, hurriedly descended from the fifth to the first floor and pursued the thief, who collided with and knocked down a visitor to the building and escaped.

## BLACK LIST WILL LIMIT PASSPORTS

A State Department black list of relief organizations and business houses found guilty of misstating facts in transport applications is to be instituted to keep down passport applications.

The State Department today announced that investigations have proven in many instances that passport applications have contained serious misstatements of fact. The passport question is considered so serious by the department that a black list is to be begun. It was pointed out that applications for passports to allied countries and Switzerland cannot be furnished unless the department is satisfied they are urgently necessary.

## Acrobat Celebrates Release From Army On Top of Trolley Pole

NEW YORK, April 20.—Patrick Curtin is an acrobat. He proved it by his antics on top of a trolley pole which so alarmed passersby that they notified the police.

Patrolman Cornelius O'Keefe hauled Curtin from his perch. The acrobat turned on O'Keefe and the two were fighting when reinforcements appeared. The prisoner was taken to the police station, where Curtin said he had been discharged from the army. He had his discharge papers. He added that he was so delighted at his freedom again that he didn't know half the time what he was doing.

Curtin became so demonstrative in the police station that the police decided to hold him.

## Not An Age For Weaklings— Nation Demands Men of Blood and Iron

Physician says Iron is Absolutely Essential to Greatest Development of Physical and Mental Power

How Organic Iron—Nuxated Iron—Helps Put Renewed Vim and Energy Into the Veins of the Weak, Run-Down, Infirmed and Aged Often Increases Their Strength in Two Weeks' Time

This is not an age for weaklings—war-time methods of living have raised the physical standards of the nation. So many modern men and women have more iron in their blood today as a result of eating coarse foods and living in the open that their vigorous health and untiring energy are in sharp contrast to the weak, run-down condition of those whose blood is literally starving for want of iron.

To possess the power, energy and endurance that win we must keep the blood rich in strength-giving iron and unless sufficient iron is obtained from our foods it must be supplied in some form which is easily absorbed and assimilated by the system. For this purpose physicians below explain why they prescribe organic iron—Nuxated Iron—which by enriching the blood and creating thousands of new red blood cells often quickly transform the flabby flesh, toneless tissues and pallid cheeks of weak, anemic men and women into a glow of health. It increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances.

In commenting upon the probability of building up a stronger race of people by increasing the supply of iron in their blood Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey, says:

"Just as lack of proper foods for its soldiers saps the strength of a nation, so does want of sufficient iron in the blood of men and women reduce their power and make them an easy prey to the thousands of disease germs constantly around us and always ready to attack the constitutions of the weak and run-down. It is not the quantity of food you eat which makes you strong, but the amount which is assimilated and taken up by the blood.

"Iron is absolutely necessary to change food into living tissue, muscle and brain. Refined foods and modern methods of cooking have robbed us of much of the iron which Nature intended we should receive and there is no doubt in my mind that the country of war-time, with their greater percentage of strength-giving iron, have materially aided in building up a stronger race of people. But unless this iron is obtained from our food it must be supplied in some form that

to possess power, energy and endurance. For supplying this deficiency and increasing the red blood corpuscles, I know of nothing more effective than organic iron—Nuxated Iron. From a careful examination of the formula and my own tests of Nuxated Iron, I feel convinced that it is a preparation which any physician can take himself or prescribe for his patients with the utmost confidence of obtaining highly beneficial and satisfactory results. The fact that Nuxated Iron is today being used by over three million people annually as a tonic, strength and blood-builder, is in itself an evidence of tremendous public confidence and I am convinced that if others would take Nuxated Iron when they feel weak and run-down it would help make a nation of stronger, healthier men and women.

In commenting on the relation of strong nerves and physical endurance to the attainment of success and power Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, says: "Thousands are held back in life for want of sufficient iron in the blood. A weak body means a weakened brain and a weak mind. A man or woman who falls just short of winning because they don't back up their mentality with the physical strength and energy which come from having plenty of iron in the blood. That irritable twitch, that fit of despondency, that sort of signal nature gives to tired, listless folks when the blood is clamoring for strength-giving iron—more iron to restore the health by enriching the blood and creating thousands of new red blood cells.

"In my opinion the greatest curse to the health and strength of American people of today is the alarming deficiency of iron in their blood. It is through iron in the red coloring matter of the blood that life-sustaining oxygen enters the body. Without iron there is no strength, vitality and endurance to combat obstacles of

It is The Iron-Blooded Men Who Master the Nerve Racking Jobs—While The Hand of Fate Ruthlessly Pushes Aside The Weaklings Whose Blood is Starving for Want of Iron

Insufficient iron in the blood has ruined many a man's nerves and utterly robbed him of that virile force and stamina which are so necessary to success and power in every walk of life.

"Therefore, I strongly advise those who feel the need of a strength and blood builder to get a physician's prescription for organic iron—Nuxated Iron—if you don't want to go to this trouble, then purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the pack.

"If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people who were ailing all the while have most astonishingly increased their strength and endurance simply by taking iron in the proper form. And this after they had, in some cases, been doctoring for months without obtaining any benefit.

Manufacturers Note: Nuxated Iron recommended above is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not irritate the stomach, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by People's Drug Stores, Limited.
